## Praktikum Pengembangan Aplikasi Website Tugas Pendahuluan Modul 5

```
1 <?php
2
3 namespace App\Console;
4
5 use Illuminate\Console\Scheduling\Schedule;
6 use Illuminate\Foundation\Console\Kernel as ConsoleKernel;
7
8 class Kernel extends ConsoleKernel
9 {
10     /**
11      * Define the application's command schedule.
12      *
13      * @param \Illuminate\Console\Scheduling\Schedule $schedule
14      * @return void
15      */
16     protected function schedule(Schedule $schedule)
17     {
18         // $schedule->command('inspire')->hourly();
19     }
20
21     /**
22      * Register the commands for the application.
23      *
24      * @return void
25      */
26     protected function commands()
27     {
28         $this->load(__DIR__.'/Commands');
29
30         require base_path('routes/console.php');
31     }
32 }
33
```
